

# CareLoop HK

Watching the gaps  
between visits.

WhatsApp check-ins. Smart monitoring.  
Nurse review. Safer follow-up.

## RISK ALERT

**Mrs. Chan**

Weight ↑ 2.3kg in 3 days

Shortness of breath

Leg swelling

Missed medication

**For nurse review**

# The Gap Between Visits

Chronic conditions don't wait for the next appointment.

Early signs are **missed**. Conditions **worsen**. Urgent care becomes the only option.

## Clinic Visit

Patient seen,  
plan updated

## Long Gap

Days to weeks pass  
with little visibility

## Missed Symptoms

Symptoms worsen,  
signals are missed

## Urgent Care

Condition worsens,  
costs go up, stress rises

## The Real Bottleneck

The problem is  
**adherence,**  
not only monitoring.

Elderly patients may not use new apps  
or remember daily check-ins.

Families and care teams have  
limited visibility.

Delays lead to avoidable deterioration  
and urgent care.

# The **Solution** for Continuous Care

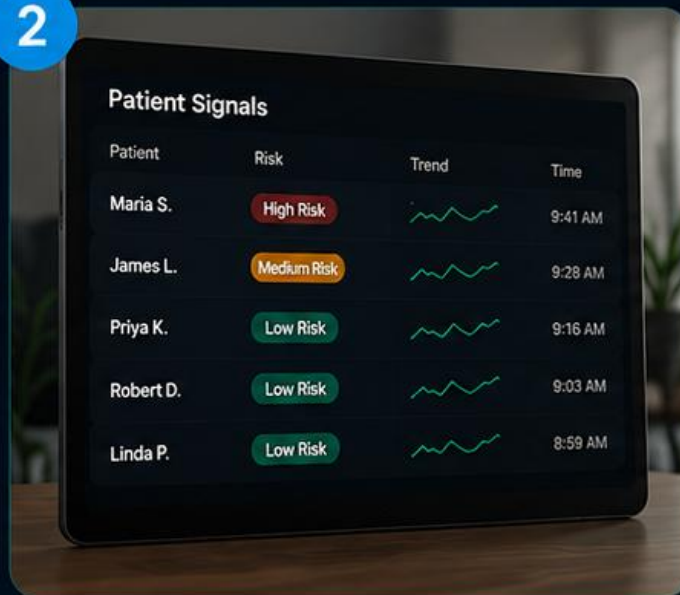

1

## WhatsApp Check-ins

Patients receive simple check-in messages and reply by text or voice.

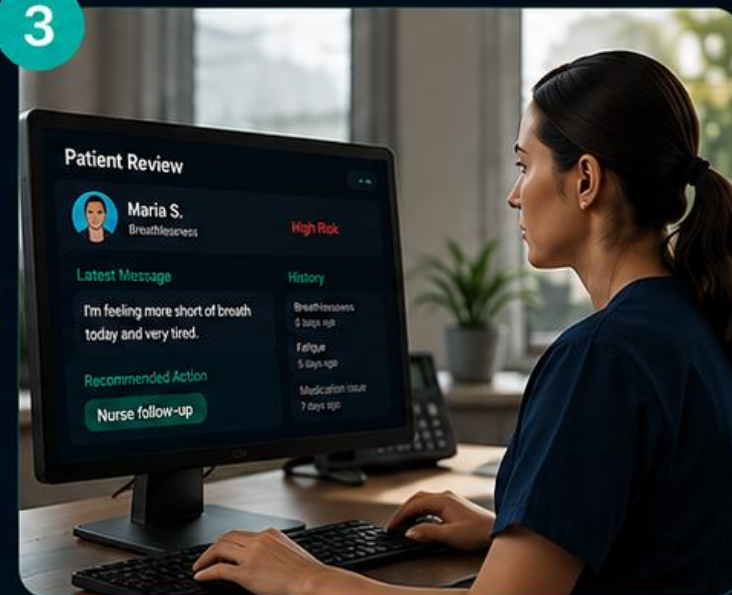

2

## Structured Signals

CareLoop turns replies into structured data and risk signals.

3

## Nurse Review

Concerning cases are routed to nurses for review and follow-up.

The right **message**.  
To the **right person**.  
At the **right time**.

CareLoop helps care teams act earlier,  
support consistently, and keep patients on the right path.

# Where We **Serve.** Why It **Fits.**

## Our Market

Serving those who deliver care every day.

### Elderly-care Operators

Residential homes, day centres, community services

### Home-care Agencies

Providers of in-home and outreach care

### NGOs

Social service organizations and charities

### Clinics

Primary care clinics and specialist practices

## Why Hong Kong

A strong match for CareLoop.

### Ageing Population

Rapidly growing elderly population

### Messaging Habits

High WhatsApp adoption across all ages

### Family Caregivers

Families are closely involved in care

### eHealth Direction

Aligned with Hong Kong's digital health strategy

# The Path to Market

Start focused. Prove value. Scale with partners.

## 01 Pilot High-Risk Chronic Patients

Start with patients who are most in need and most likely to benefit.

## 02 B2B Partnerships

Work with care providers, NGOs, clinics, and insurers as trusted partners.

Care Providers

Clinics & HCPs

NGOs

Insurers

## 03 Per Patient Per Month

Simple, predictable pricing that scales with impact.

Per Patient / Month

**HKD 180–250**

- ✓ Affordable
- ✓ Scalable
- ✓ Outcome-driven

## Safety First.

CareLoop is designed with people and safety at the core.

### No Diagnosis

We do not diagnose or treat.

### Rule-based Escalation

Structured, consistent and transparent.

### Human Review

Every escalation is reviewed by people.

# CareLoop watches the gaps between visits.

Continuous care. Stronger connections. Better outcomes.
